

Birla Institute of Technology & Science, Pilani

Pilani Campus

Dr. Vinay Chamola, (Ph.D., National University of Singapore)

Assistant Professor, Department of Electrical & Electronics Engineering

To Whom It May Concern

I am glad to inform that Ms. Dhanshree Tejawani has successfully completed her Summer Research Internship from 1st June 2020 to 15th July 2020 at BITS-Pilani, Pilani campus under my supervision. She has demonstrated excellent technical and analytical abilities in the duration of her internship. Her attentive listening and great enthusiasm have been her strengths to understand concepts and implement them effectively.

As her mentor for the Summer Internship 2020, Dhanshree has demonstrated an excellent ability to carry out Literature reviews, Technical papers and has shown a clear and in-depth understanding of the concepts in the paper. She is a person with great grasping and analyzing capabilities. She is an excellent team player and has demonstrated her ability to gel quickly with the team and take initiatives in solving the problem. As a person who is truly interested in the betterment of the world, her futuristic thinking in taking up projects and coming up with ideas which will have an impact is truly commendable. She also has the ability to adapt herself to new and challenging environments and is willing to stretch herself to the limits.

Dedicated, disciplined and driven are three words that summarize my impression of Ms. Tejawani. She has a natural curiosity, a keen sense of observation, qualities of being a leader and a desire to learn skills that are so incredibly important in almost any computer field to bring a change.

I foresee a bright future ahead for Ms. Tejawani and I strongly recommend her and believe that she would prove to be an asset to any organization she joins.

Best Regards,
Dr. Vinay Chamola
